Letter to the Editor

Rayburn Watkins, former Benton publisher, last week sent the Courier for publication an "open letter" addressed to State Senator Wayne Freeman of Mayfield. Watkins now is managing director of the Associated Industries of Kentucky with headquarters in Louisville.

His letter to Senator Freeman follows: February 23, 1955 Senator Wayne W. Freeman

Mayfield, Kentucky Dear Wayne:

Your announcement for election which appeared in the Marshall Courier of Feb. 18 was a most interesting article and I read every word of it.

This letter is to take advantage of the offer you made as follows: "You can find out where I stand on any public question by asking me for my views." Since we grew up in the

same area, attended the same school, and know so many of the same people, I am very interested in your views on two questions.

1. You are no doubt familiar with the sorry spectacle that occurred Tuesday to force the firing of one of your constituents employed at the J. C. Penney store on the grounds that he does not pay tribute to a labor union. Do you think Hollie Jones and his one-armed veteran son have a right to work without being forced to "buy" it?

2. If so, are you willing to take the morally sound position that this basic human right should be protected in a "Right-to-Work" bill?

A state senator holds a most important trust and he helps to make the laws which govern the whole issue. Therefore, Wayne, the eyes of the whole state are upon you as you answer these questions.

Best regards,
Rayburn Watkins, Managing Director Associated Industries of Kentucky.

Palma is making a good start on community improvement. The first meeting was held Feb. 22 with 62 people present. The next meeting will be held at the North Marshall High School on Tuesday, 7 p.m., March 8.

Pruning and spraying of fruit trees should be done before the buds open. A dormant spray is for the health of the tree. Later sprays are for the fruit. Spray now to control scale and other diseases.

Pastures should not be overgrazed early in the spring. It would be better to keep livestock off the fields until they get a good start.

Soil samples for testing are coming into the office at a rapid rate. Ten samples were brought to the office Saturday. Get your samples as soon as possible. Find out what plant foods are needed before you buy.

Fertilize strawberries to pick this year, now with phosphate. High yield of berries require large quantities of phosphate at harvest time.

Use about 300 to 400 pounds of 62 percent or about 1,000 pounds of 20 percent. Broadcast when foliage is dry.

Set strawberries during March if possible. The earlier they are set the better chance you have of securing a good row for next year's picking. Late set berries suffer more from drought during the summer.

"Mama" Peggy Wood Embroiders Vest for Husband, William Walling

Peggy Wood, star of CBS-TV's "Mama" series, is Mrs. William H. Walling of Benton. This month Mrs. Walling completed work on a Victorian evening vest, black needle-point with moss rose and forget-me-not flower motif, for her husband. Bound in satin ribbon, with enamel antique buttons, the vest has been termed a "museum piece" by Howard Green, the famous clothes designer, who is a longtime friend of Mrs. and Mr. Walling.

Bifocals

Continued from Page One

And our hair, if we can boast of such ornament, is not exactly curly.

So you see, Mr. Summerfield, the doors at the Benton postoffice are very, very inconvenient. In fact, they are a definite hindrance. Someone likely will get hurt some time or another. And will the Postoffice Department ever get sued? My! My!

THE REAL PROBLEM, sir, is that Benton has outgrown its postoffice building. Of course, if you don't know where Benton is, then you don't know that it has outgrown its postoffice.

But that is the case. And we believe the citizens of Benton would like a new postoffice building—all pretty and modern and convenient.

And since Congress has voted a pay raise for all its members, we feel like that, maybe, they would be in such a good humor as to vote to give Benton a new postoffice.

And if they do, sir, be sure and have it specified in the contract

that the new postoffice will have those modern electronic-eye doors. The kind, you know, that you don't have to touch to open.

We never did have any ambitions to be a Mr. Atlas or a Mr. Strongarm. But man, you ought to see these muscles in our arms. And it's all because Benton doesn't have a modern postoffice.

THE BIBLE SPEAKS

International Union
Bible School Lesson

BY DR. KENNETH J. FOREMAN

Scripture: Acts 2:42-47; 1 Corinthians 13:1-7; Ephesians 3:14-19; Colossians 3:12-15; 1 Thessalonians 5:11-13; 1 John 4:7-11

Devotional Reading: 1 John 3:14-18

New Life in Christ

Lesson for March 6, 1955

THE human race is a strange mixture of friendship and quarrels. People can't get along without one another, or with one another either. People flock together in all sorts of clubs and organizations and yet many of these gatherings of people either spend their time fighting some other groups, or even fighting among themselves. The trouble is that most bonds uniting men are neither deep nor strong enough to stand the strains of life. Business partnerships break up at the breath of failure; political combinations are as fragile as old china; while as for international alliances, most people have now forgotten that ten years ago Russia was counted one of our best friends and Germany our worst enemy.

The True Center

There is one fellowship, and just one, which is world-wide, which has cemented persons and peoples of the most diverse kinds, which has endured past the dying of innumerable other bonds and unions. This closest of all the bonds known on earth is the fellowship of Christian love. If some romantic person rises to ask if the bond of love between man and his wife is not the strongest tie between human beings, it must be pointed out that the record of the marriage courts show that the marriage bond is much less likely to break down where husband and wife are both practicing Christians. — that is to say, it is Christian fellowship that keeps marriage-fellowship from breakdown. Now what makes the fellowship of true Christian love so strong? It isn't that Christians are so much more lovable than other persons. The secret is not in the Christians. It is in Christ. Why do iron filings gather so closely together around a magnet? Take the magnet away and they scatter easily. Take Christ out of the church and it soon falls apart in indifference and even bitter quarrels. "We love, because he first loved us," is the secret of right Christian fellowship.

Breaking Barriers

We have many barriers in modern life which divide us into tight groups, misunderstanding and often undermining one another. There are management and labor, urban and rural, adults and adolescents, white and Negro, high and low salary-bracket, and so on. The fact is that none of these barriers is anywhere nearly so strong as was the line, in early Christian times, between Jew and Gentile, or between master and slave. These were simply uncrossable barriers. Master and slave, Jew and Gentile, were not class distinctions, they were iron clad castes. The most astounding thing about the Christian church in its fresh early years, — astounding even to leaders like Paul — was that these caste-lines had been erased in the Christian fellowship. Jew and Gentile remembered only that they both loved the same Christ who had died for all Master and slave met as brothers when they became Christians. The sharpest human divisions faded in the light of the cross. So it is today. People who live in segregated churches, whether the segregation-line is economic or Christian fellowships that cross these human lines by the divine force of Christian love.

Questions for Church Members

The final test of a church — whether it is a true church — whether a particular congregation has a right to call itself a part of Christ's true church, — the final test is that of fellowship. It would be a good idea for church members to give themselves a stiff examination on this line. Do the members of this church treat one another in a more brotherly way than outsiders do? Are social, racial, economic class-lines drawn between this and other churches, even inside the church itself, or is this one place where all meet on one common ground? Do the members share with one another, and if so, what do they share? Is there for example a sharing in prayer? If one member has had a high experience, do others hear about it? If one needs the other's prayers, is he free to say so, and why? Would a stranger to this church get the impression that this is a group gathered for convenience only, or a genuine fellowship of love?

CALVERT CITY NEWS and BUSINESS DIRECTORY

Miss Turner, Marries to Sgt. Wallace

Mr. and Mrs. Lawrence H. Turner of Benton Route 6 announce the marriage of their daughter, Julia Ernestine, to Sgt. Charles H. Wallace, son of Mr. and Mrs. William Wallace of Calvert City. The wedding ceremony was performed in Corinth, Miss., on Feb. 21.

Sergeant Wallace is stationed at Fort Campbell.

Mrs. Wallace is a senior at North Marshall High School and will graduate this spring.

PENNSALT PRESIDENT TO RETIRE LATE THIS YEAR

George B. Beltzel, president of the Pennsylvania Salt Manufacturing Company, has expressed to the board of directors his desire to retire as chief executive later this year when he completes 25 years' service with the company.

At the same time, he recommended that William P. Drake be appointed executive vice president, and elected to board membership. Both recommendations were approved.

Mr. and Mrs. Elbert M. Young and Mr. and Mrs. Charles Hall attended a fellowship meeting at the Church of Christ in Hopkinsville Tuesday of the past week.

Miss Zimroude DeHaven of Calvert City was a visitor in town Friday.

NEWS IS WANTED FROM CALVERT CITY SECTION

Each week, the Courier will publish one entire page of Calvert City news and advertisements. The page, insofar as possible, will be devoted exclusively to Calvert City news and business.

So we want the folks in the Calvert area to send all the news possible in order to make a big showing for their own page in the Courier.

Club and church activities, school news, weddings, parties, socials, anniversaries and out-of-town visitors will make desirable news.

So send in your news now. Let's make the Calvert City page in the Courier a good one.

Clark Homemakers Meet at Home of Mrs. James Henson

The Clark's Homemakers met recently at the home of Mrs. James M. Henson, and the lesson on foods was enjoyed by all. Games were conducted by Mrs. W. T. McDermott and prizes were won by Mrs. Robert Turner and Mrs. James Henson.

Those present were: Mesdames Landol York, J. P. Johnston, C. T. Wyatt, A. T. Anderson, Robert Turner, Jimmie Gibson, Cleve Collier, W. T. McDermott, Buster Lamb, Raymond Turner and one visitor, Mrs. Austin Allen.

Mr. and Mrs. John Davis of Calvert City were shoppers in Benton Friday. They were also pleasant visitors at the Courier office and renewed their subscription to the paper.

Water Turned Into Mains at Calvert

Water started flowing through the lines at Calvert City this week.

It marks the first time that booming Calvert City has had city water. Heretofore, residents have had to depend on individual water wells.

It is hoped that all house connections will be completed by the end of next week, March 12.

All water will be put through an iron removal unit and will be chlorinated. The first several days after the water is turned into the mains, chlorination will be heavier than usual in order to sterilize completely the water mains. Thereafter, the chlorination will be normal.

The water treatment plant has not been completed, but it will be in operation before long.

The sewer plant is not scheduled to be completed until about May 1, and no one should make any sort of tie-in to the city sewer system.

As set in the city ordinance, it is required that each customer pay a \$10 deposit before hooking a meter on to the water system.

C. E. Devine will collect the \$10 deposits. Mr. Devine has resigned from the Calvert City Water and Sewer Commission and has been named operator of both the water and sewer plants. In addition, he will read the meters on a regular monthly schedule.

There also were awards made to six Cub Scouts.

On Saturday, Feb. 19, the Cub Pack was the guest of the Illinois Central railroad in Paducah where they were shown through the Paducah Round House and Shops. This proved to be the most interesting experience for the Scouts as they had been studying railroading.
